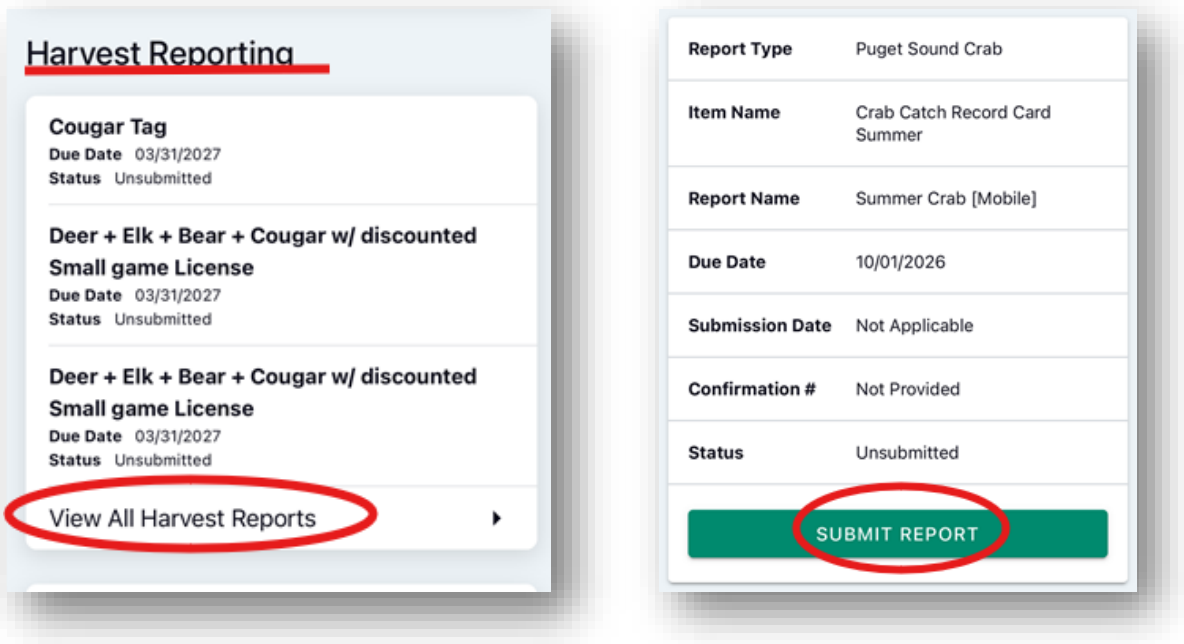
(Mobile) Submitting a PS Crab Harvest Report

As a mobile license holder, you do not need to submit a crab harvest report if you have entered catches electronically on your crab catch card. If you have not entered any catches, you will need to submit a harvest report. You can submit your harvest report through WILD online or through the MyWDFW mobile app.

To submit your crab harvest via the MyWDFW mobile app, please use the following directions:

1. Login to the MyWDFW app using your username and password.
2. On your home page click on **View All Harvest Reports** under **Harvest Reporting**.
3. Locate your **Puget Sound Crab** report (you may have to scroll).
4. Click the green button that says **Submit Report**
5. Enter your response.



If you forgot to enter your crab during harvest and need to report them, please send an email with how many crab you caught, the dates, and the marine area they were harvested in, to catch.reporting@dfw.wa.gov

If you need further assistance, or have additional questions please give us a call at 360.902.2464.
